Music has the capacity to engage, entertain, challenge, inspire and empower students. Studying music stimulates imaginative and innovative responses, critical thinking and aesthetic understanding, and encourages students to reach their creative and expressive potential. Music exists distinctively in every culture and is a basic expression of human experience. Students' active participation in music, individually and collaboratively, draws on their own traditions and life experiences. These experiences help them to appreciate and meaningfully engage with music practices and traditions of other times, places, cultures and contexts
