About Housing

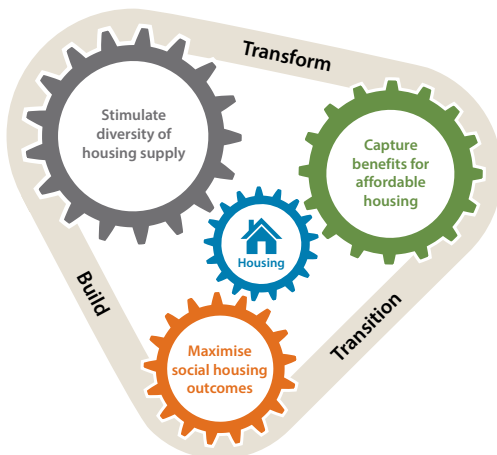

As part of Machinery of Government (MoG) changes, functions from the Department of Local Government and Communities, the Department for Child Protection and Family Support, Housing Authority and Disability Service Commission have amalgamated to form the Department of Communities as of 1 July 2017.

Housing seeks to build better communities and enable all Western Australians to have a place to call home.

Through the State Government's Affordable Housing Strategy 2010-2020: Opening Doors to Affordable Housing (Opening Doors), Housing is firmly focused on helping Western Australians progress towards home ownership.

Housing provides public housing for those in need, when in need; affordable land and housing opportunities for those on low-moderate incomes, assists with housing finance through Keystart, provides rental assistance, and provides government employees in regional areas with quality homes so that they can deliver the necessary services to their communities.

As part of Opening Doors, Housing plays a pivotal role in connecting stakeholders and partners from the private and not-for-profit sectors, local government authorities and other State Government agencies to deliver 30,000 more affordable homes by 2020 for low to moderate income earners.

Vision and Mission

Housing is an organisation that places great importance on values. Our values shape the way we make decisions and how we treat each other, and importantly how we deal with the community, our customers, and our business partners.

Being values driven also affects the way we work with the wider community, particularly with our tenants, other clients and partners. Using these values as tools on a daily basis is the responsibility of everyone who works at Housing.
