

Security & Risk Support Officer

POSITION DESCRIPTION FORM

Region / Portfolio:

Technology

Position Description Number:

Generic 582

District / Branch:

Enterprise Security & Risk Management

Level:

Level 3

Work area:

Security Operations

Employment Conditions

Industrial Agreement/Award: Current PSA PSCSAA and Agency Specific Agreement

Work Pattern: Monday – Friday (Day Work): May be required to work outside normal operating hours

Location: Perth

Position Objective

Provides administrative and analytical support to Enterprise Security & Risk Management functions. Contributes to cyber security governance, risk, and compliance activities by assisting in monitoring the agency's security posture, supporting audit and risk processes - including Security Risk Assessment (SRA) evidence gathering, and maintaining documentation to safeguard information assets.

Supports the identification and management of information security risks and compliance issues, including risks associated with vendor-delivered cyber security services contributing to the continuous improvement of cyber security practices across the agency.

Role of Work Unit

The Security Operations unit is responsible for cyber security across the WA Police Force ICT environment. The unit delivers security risk assessments, audits, and vulnerability assessments, and facilitates independent external reviews. Under performance-based sourcing arrangements, the unit also supports assurance over vendor-delivered cyber security services through evidence review, reporting and coordination.

Ensures the effective implementation of ICT security controls, supports risk reduction and vulnerability remediation, and promotes compliance with security policies and standards across the agency.
