## CONTEXT

The Department of Education is Western Australia's largest employer with approximately one third of the Government workforce in some 800 worksites across the State. The Department's annual budget is approximately \$4.5 billion.

The major objectives of the Department are to achieve excellence in the public school system and to provide access for all Western Australian students to a quality education irrespective of their background or geographical location.

The Department is committed to achieving these objectives by:

- attracting and retaining a highly skilled and capable workforce
- supporting all learners to achieve their full potential, including those with special educational needs and interests
- ensuring all public schools maintain excellence in the quality of education and the teaching and learning environment.

The principles underpinning the Department's objectives for the public school system in Western Australia are:

- working collaboratively to achieve outcomes
- accepting responsibility and accountability for the achievement of outcomes
- enabling flexible, innovative and diverse work practices
- promoting confidence in the professional judgement of the Department's staff.

The Department operates within a framework of principles and values that are applied in all decision-making contexts. These are:

- a culture of learning and excellence
- an expectation of accountability and action
- a commitment to partnerships, professional collaboration and stakeholder involvement
- an environment in which diversity and equity are valued.

Further context about the particular school in which the vacancy is being advertised is available on the Department's website. Please visit <http://www.det.wa.edu.au/schoolsonline/home.do> and enter the school name in the *Find a School* field.

The Department's School Psychology Service provides specialist support to students and staff of public schools in the areas of mental health and wellbeing, student behaviour, and learning..

The School Psychology Service provides specialist psychological assessment, diagnosis, intervention and consultation services:

- at the individual, group, whole school and system levels; and
- directly and indirectly.

Services are provided in the areas of:

- behaviour management;
- learning and motivation;
- mental health and wellbeing;
- emergency and critical incident management; and
- change management and organisational development, including professional learning for school staff, parents and caregivers..

The Department's School Psychology Service employs over 250 school psychologist FTE in a range of educational settings, providing proactive and responsive psychological services to school communities.

The Department's *Competency Framework for School Psychologists* addresses the complex work of the school psychologist by outlining four professional elements of school psychologists' work:

- Key principles – the principles that guide all practice in school psychology;
- Professional attributes – the underpinning values, beliefs and skills that form the base from which the school psychologist operates;
- Professional knowledge – the psychological, educational, legislative and policy understandings required for day-to-day practice as a school psychologist; and
- Professional practice – the competency standards for effective practice for school psychologists, represented through five dimensions and across three phases along a continuum of school psychology practice.

While the phases of competency development described within the *Competency Framework for School Psychologists* are dynamic and not related to length of service, it is expected that school psychologists with provisional registration will be working to achieve the critical elements associated with the five dimension of the school psychologists work at Phase 1.

School psychologists, including those employed by Independent Public Schools are professionally accountable to a Lead School Psychologist.

## ROLE

With a focus on areas of psychology including educational, organisation and clinical, the school psychologist uses a scientist practitioner approach. The school psychologist provides psychological services and evidence-based assessments and interventions in mental health and well-being, behaviour, risk and critical incident management, learning and disability.

School psychologists with provisional registration are responsible for:

- delivering direct psychological service to identified clients, under the supervision of a Psychology Board of Australia approved supervisor;
- applying psychological skills and knowledge to improve mental health, learning and behavioural outcomes for students in collaboration with school personnel, parents, caregivers and other agencies;
- assisting with the development and implementation of school-based student support services and programs;
- operating as a member of a collaborative and coordinated student services team;
- assisting schools to maximise the educational and psycho-social outcomes of individuals and groups of students;
- supporting and facilitating organisational change;
- providing psychological services to school communities affected by critical issues/incidents; and
- maintaining records consistent with Department and Psychology Board of Australia requirements.
