

# Job Description Form

## Department of Justice Purpose

To provide a safe, secure and decent justice service which contribute to community safety and reduced offenders' involvement in the justice system.

<b>Position title</b>		<b>Special conditions</b>
Clinical Nurse		
<b>Effective date</b>	<b>Position number</b>	<b>Level</b>
May 2018	Generic	ANF2
<b>Division</b>	<b>Directorate</b>	<b>Branch</b>
Corrective Services	Offender Management	Health Services

### Divisional Outcomes

To reduce re-offending, protect the community and direct offenders towards the adoption of law-abiding lifestyles through custody and containment, care and well-being, reparation, rehabilitation and reintegration.

### Directorate Outputs

Offender Management is responsible for the development and provision of programs and services that facilitate the rehabilitation of offenders. It includes the provision of health services to offenders in custody and the provision of programs, psychological assessment, counselling and support as part of an integrated offender management framework.

### Branch Outputs

Health Services role is to work in partnership with Adult and Juvenile Custodial Services to provide a comprehensive range of health care services to patients in custody, at a standard comparable to that available in the general community.

This is achieved through assessing health determinants, delivering preventative health care, health screening, delivering acute care within a primary care context and assessing the effectiveness of health care delivery.

The majority of health care provided to patients in custody is based on a primary health care model and predominantly relates to the management of Chronic Disease, Communicable Disease, Co-morbidity (Alcohol and Drug Addiction Services and Mental Health Services) and Acute Care response as required. The branch is also responsible for establishing and maintaining policy and standards.

### Role of the Position

Clinical Nurses provide clinical leadership, critical thinking and direct care to patients throughout the patient journey in a custodial setting. Utilising comprehensive clinical assessment and excellent communication skills, the role promotes and supports delivery of safe quality care within a multidisciplinary team.

<b>Position title</b>		<b>Special conditions</b>
Clinical Nurse
