Reporting relationships

Superordinate: Principal Civil Engineer, Level 7

Subordinate: No Direct Reports

Key role of this position

Provides engineering support for the maintenance, design, construction, upgrades and modifications of the branch assets; contributing to the overall performance, reliability and compliance of the PTA network.

Core duties and responsibilities

Leadership and Management

- As a member of the branch, contributes to both the branch operational performance and the reliability of assets leading to the effective delivery of services for the PTA.
- Contributes to the branch engagement and performance by contributing ideas and opinions for improvement; delivering against Divisional and Branch objectives and management expectations; maintaining and developing technical competence
- Contributes to developing a positive safety culture, contributing ideas and opinions for continuous improvement in workplace safety, engineering design and maintenance delivery ensuring works personally carried out comply with PTA requirements and other legislative requirements.
- Provides support and contributes to general business matters relating to the branch operation, such as risk management, policy and procedure development, performance reporting and continuous improvements to ensure the branch delivers in accordance to PTA requirements.

Asset Management

- Provides technical guidance and advice with regard to technical matters such as to designs, drawings and documents and represent the branch as a technical expert.
- Assists in the areas of design, maintenance, testing and commissions, inspecting, testing, reviewing, investigating and any other arrangements necessary to support the operation; carrying out delegated arrangements to achieve business objectives appropriately and to management expectation.
- Assists in the review and development of technical requirements necessary to comply with Legislation, Standards and other external regulations taking account of engineering best practice; and with the development and review of codes of practice, technical standards, specifications, work instructions and good practice guides.
- Assist with the delivery of asset renewal requirements for branch assets, supporting or acting as Project Engineer to deliver renewal programs and projects within the division and for major projects so that works necessary to deliver PTA goals are identified, specified and achieved
-

SELECTION CRITERIA

1. Core Competencies
