WELCOME TO PIARA WATERS SENIOR HIGH SCHOOL

OUR VISION

To create a school culture where every student is inspired, motivated, and encouraged to achieve at the highest level. Excellence in teaching and learning, excellence in leadership, positive relationships and connection to culture and community will drive a pathway to success for every student.

INSPIRING EXCELLENCE

The art of exemplary leadership will enable the creation of a culture where school leaders work collaboratively with teachers and the broader school community to inspire and motivate students to achieve at the highest level. By creating the conditions where high expectations and high-quality teaching thrive, we will ensure positive impact on learning outcomes for students.

ACADEMIC RIGOUR

Excellence in teaching will result in high levels of student engagement and learning. Teachers will set high standards whilst delivering a rigorous curriculum which is both challenging and rewarding for all students.

A 21st CENTURY EDUCATION

Students will receive 21st century education in state-of-the-art facilities, a deep and versatile education that combines a rich curriculum with high expectations and encouragement to thrive.

CONNECTION TO CULTURE AND COMMUNITY

Culture shapes our identity. As humans, we depend on connection, community and caring. Our college is multicultural and our connection to land, water and culture will drive our engagement with community. We practice mutual respect and will develop and maintain positive relationships with all stakeholders.

EMBRACING DIVERSITY

We will support the development of positive social relationships and interactions by providing learning opportunities that incorporate diversity, teach resilience, acknowledges, and respects every student, free from discriminatory beliefs and attitudes. We will work collaboratively with families to provide a supportive, inclusive, and nurturing learning environment that ensures students realise their goals.

OUR LEARNING ENVIRONMENT

Flexible learning spaces will enable teachers to personalize learning for our students and create an environment which fosters curiosity, enhances creativity, engenders critical thinking thereby equipping students with sound learning positions for success in the future.

VALUING POSITIVE RELATIONSHIPS

Our school is built on positive relationships characterized by trust and mutual respect. Positive relationships will be at the core of our business. Student learning and achievement is maximized when there is commitment and a shared goal of success for each student. We value authentic relationships with all stakeholders and will support, inspire, and encourage each other whilst valuing the contribution of all.
