

JOB ROLE STATEMENT

ENGINEER STRUCTURES DESIGN SPECIFIED CALLING - LEVEL 3

DIRECTORATE PLANNING AND TECHNICAL SERVICES
BRANCH STRUCTURES ENGINEERING

POSITION NO VARIOUS

KEY RESPONSIBILITIES

Manage and undertake the investigation and design of bridges and refurbishment design for bridge maintenance, strengthening and widening. Review corporate structural design/durability standards, guideline manuals and specifications.

KEY DELIVERIES

Bridge Design and Review

- Investigate and undertake specialist concept and detailed structural/durability design for new bridge structures.
- Undertake maintenance and refurbishment/durability design for existing bridges.
- Co-ordinate drawing preparation and cost estimates for construction and provide specialist technical advice.
- Engage and manage technical consultants for delivery of structural designs.
- Review consultant design projects and provide specialist technical advice on design quality and conformance to structural standards and specifications.
- Prepare design briefs, engineering specifications and contract documentation for bridge construction contracts.
- Provide specialist technical advice and construction support to Main Roads' delivery directorates.
- Provide specialist technical advice and engineering input for bridge design research projects.

Design Standards, Practice and Capability

- Review current codes of practice, design and specification standards and recommend improvements.
- Provide specialist engineering input to the development of bridge design, durability, maintenance and construction standards and processes.
- Facilitate structural design and analysis practice to internal team and the use of design software.

Leadership and Management

- Recommend inclusions to the Branch Business Plan.
- Manage financial, technological, physical and other resources within agreed allocations to meet agreed outcomes.
- Manage employee behaviour, performance and development.

Stakeholder Relationships

- Build and maintain collaborative working relationships with internal and external stakeholders.
- Liaise with Main Roads' delivery directorates, the community, Local Government agencies and the road industry to provide specialist advice on various aspects of structures/durability design.

SAFETY, HEALTH AND WELLBEING (SHW)

Responsible for active participation and performance to SHW standards as detailed by the Main Roads' Safety, Health and Wellbeing (SHW) Management System - refer to "SHW Roles and Responsibilities Procedure" on 'iRoads' intranet.

LOCATION

Main Roads is a regionalised organisation with key delivery centres operating from the Kimberley to the Great Southern regions, including the metropolitan area. The incumbent of this position may be required to undertake a role in a region for a period of time.

DYNAMIC RESOURCING

The incumbent of the position may be required to perform any other role within the incumbent's level of skill, competence and responsibility as directed by the Managing Director of Main Roads to meet the organisation's objectives and the incumbent's development.
