

*Independent Public School*

Tom price SHS is an independent public school located near the picturesque surrounds of the Karijini national park 1600km from Perth, servicing students who live in the towns of tom price, Paraburdoo and the nearby aboriginal communities Wakuthuni and Bellary. The achievement of our students is made possible by the dedicated and supportive staff who tailor teaching programs to meet the needs of our students and through partnerships with local industry and businesses via school based programs and traineeships.

Our school's vision is to inspire students to embrace their diversity and be passionate about learning in order to achieve their personal best. This is fostered through the extensive year 7 to year 12 secondary education program, supported by vocational education and training (VET), cultural, artistic and sporting opportunities. A key element of our academic STEM program is the centre of resources excellence (core), with the Pilbara core program offered to interested students in years 7 and 8.

The school is also participating in the Fogarty Foundation Edvance program, a whole school improvement program providing school executive teams with leadership and management skills via a mentorship to improve the educational outcomes of our students.
