

South Metropolitan Health Service: **working with us**

The South Metropolitan Health Service (SMHS) is a health service with a clear vision and plan; with staff that recognise no matter their role, they are contributing to enhancing our community's health care.

We value the contribution of every member of the team and encourage integration across professions, sites and services.

Our vision

The SMHS vision is **excellent health care, every time**.

Our ambition is a future where we are the public health service of choice – for our staff, patients and community.

This means we want our patients, their carers and family members to be happy when they are referred to our services for care and treatment.

We want our staff to be happy to come to work, to feel engaged with opportunities to be innovative, and to feel listened to and respected. We want to be an employer of choice others wish to join.

In delivering excellent health care, every time, we will be an organisation that:

- values a culture of safety and quality, and sustainability
- engages with all staff
- demonstrates high performance across all areas.

Our values and behaviours

No matter what role a person has in the health service, everyone is passionate and driven to deliver the very best care and provide the very best outcomes for our patients and the community; and for each other.
