<b>Position Title</b>	Senior Business Intelligence Analyst
<b>Classification</b>	PSO Level 6
<b>Division</b>	Clinical Excellence
<b>Directorate</b>	State Health Operations Centre (SHOC)
<b>Position Status</b>	Temporary
<b>Award</b>	Public Sector CSA Agreement
<b>Site Location</b>	East Perth

**ORGANISATIONAL ENVIRONMENT**

<b>Our Vision</b>	A WA health system that delivers safe, high quality and sustainable services that support and improve the health of all West Australians.
<b>Our Mission</b>	To lead and steward the WA health system.
<b>Our Values</b>	Purposeful, Caring, Collaborative, Open, Outcome-focused

**REPORTING RELATIONSHIPS**

## KEY RESPONSIBILITIES

The State Health Operations Centre (SHOC) focuses on improving the coordination and efficiency of patient transport services and establishing new functions to manage the demand on emergency departments and ease system pressures. SHOC aims to improve the patient experience and outcomes by providing system-wide situational awareness and oversight of demand pressures to highlight issues and facilitate a coordinated response where required.

**Directorate Overview:** The SHOC will bring together key functions from across the health system to operate in greater coordination and synergy to manage safe and efficient patient flow. These functions include patient transport services; call taking, triage and dispatch (St John WA); virtual emergency care; and establishing situational awareness of demand and pressure across health service providers and St John WA by ensuring collective system-wide access to data, analysis and predictive analytics capability.

The SHOC will also facilitate quick stand up of an incident management or health emergency operations centre as required.

**Function Overview:** The Data and Digital function within SHOC aims to enable the SHOC to implement real-time data-driven proactive decision making. Through the utilisation of current and future digital platforms, Data and Digital leads the delivery of real-time business intelligence solutions and adhoc reporting which enables holistic expedient visibility of patient flow .

**Position Overview:** The Senior Business Intelligence Analyst role, part of the Data and Digital function of the SHOC, is responsible for designing, planning, and implementing data analysis and research in relation to health-specific business intelligence. Successful candidates will undertake complex analysis across the system, liaising with multiple stakeholders to understand and translate business requirements into technical specifications to inform and enable Executive decision-making.

## BRIEF SUMMARY OF DUTIES

*This section outlines the results and outcomes required of an individual in this position.*

**Employees are required to undertake all duties and responsibilities in accordance with Department of Health WA Code of Conduct, policies / procedures, and relevant legislation.**
