

Graduate Environment Program

The Graduate Environment Program will provide you **exciting, diverse and hands-on experience** through a three-year rotational program within our Environment and Heritage Branch.

Begin your Career at Main Roads!

Our main goal is to help you grow. As a leader, as a thinker – and as an individual who has an impact in our communities.

As an Environment Graduate at Main Roads, you will gain hands on learning and experience across a number of specialist and operational areas.

Your contribution will benefit our stakeholders and communities and will be rewarding no matter where your involvement takes you.

Our Environment graduates experience a three (3) year rotational program, with exposure to all facets of environmental management. Work and learn from passionate environmental specialists within a large, high performing and experienced team, undertaking various responsibilities in the following areas:

- Environmental assessment, approvals and compliance process
- On-ground environmental management to avoid and minimise the environmental impacts of infrastructure projects and maintenance activities throughout Western Australia
- Revegetation and restoration
- Geographic Information Systems

- Dieback management
- Materials and Water
- Noise
- Management of conservation significant flora and fauna
- Environmental offsets

If the idea of an attractive remuneration package, well-structured rotation plan, participation in real life environmental decisions and action, formal training to support your development, and flexible working arrangements is what you are looking for; Main Roads can build your future and will invest in your growth as a person and a professional.

We are seeking highly motivated graduates who are prepared to tackle complex issues, have excellent communication skills and thrive working in a dynamic team environment. We are looking for proactive results-driven people to help deliver our commitment to building a better WA.

Your Future, Our Direction

If the idea of an attractive remuneration package, well-structured rotation plan, participation in real life environmental decisions and action, formal training to support your development, and flexible working arrangements is what you are looking for; Main Roads can build your future and will invest in your growth as a person and a professional.
